2016 Petaluma Speedway General Rules

- 16.9. Any car pulling out of the lineup before any green flag and stopping (on or off the track) shall be sent to the rear of the field. This is to eliminate stalling on starts. The exception being a car ordered to stop by an official.
- 16.10. Once the green flag is dropped on a race, cars may not add water, oil, or fuel. Cars must pull into pits to change tires or make any repairs. No work done is to be done on the track.
- 16.11. Cars that have gone to pits must start in rear of the lineup. Drivers not obeying this rule will be penalized.
- 16.12. Special events where fuel stops are necessary are the exception. Referee will order the race restarted when the track is cleared.
- 16.13. Any race on which the green flag has dropped is officially started even if there is a restart.

- 16.20. Cars involved in an accident causing the yellow flag to drop may not lose a lap provided they start in the rear of the field and take the following green flag. This does not apply to longer races where yellow flag laps are counted and scored.
- 16.21. Complete restarts of any race will be given only if there is a blocked track or an accident serious enough to warrant stopping and restarting. Only one complete restart per event.
- 16.22. All restarts will be double file (except Sprints) with the leader having the choice inside or outside (the lead car still sets the pace).
- 16.23. The chief steward may at any time use a single file restart.
- 16.24. Cars must line up single file while under a yellow flag. Any car that does not get in line may be put to the rear of field. Starter will give the double up sign before the start of the race.
- 16.25. In the event a red flag is used after more than one racing lap has been completed and a restart is in order, cars are scored and restarted as they crossed the starting line the lap previous to the red flag.
- 16.26. Cars Involved in the accident will be placed to the rear.
- 16.27. When a red flag is used, and the race cannot be restarted because of the 10:00 p.m. curfew, the race will be considered to be completed by going back to the previous lap and with the car causing the accident going to the rear of the field. This applies also to any conditions in which we cannot continue.
- 16.28. Intentional spinning, flipping or ramming of another car, or waiting a lap to ram a car will not be permitted. These are cause for a black flag, a fine, and/or suspension. Unintentional ramming, body slamming, or bumping is also cause for a black flag and/or other penalty.
- 16.29. The black flag will be dropped for any of the following reasons: Cars dropping anything (this includes tie rods), cars with flat tires, or raised hood.
- 16.30. A flat tire on the left front (left rear on front wheel drive cars) will not cause a black flag providing the driver is handling the car properly.
- 16.31. A hood that has come loose and is blocking the driver's vision or a car that loses a muffler or is noisy is an automatic black flag and you must pull off on your own. If the black flag has to be displayed you will be disqualified and lose points and money for the night.
- 16.32. A driver not obeying the black flag and causing the race to be halted will not be entitled to re-enter that event after repairs are completed.
- 16.33. Officials will not make any alterations to any vehicle at any time.
